

New – Prepaid Orthodontia Now Eligible For Reimbursement Through Flexible Spending Accounts (FSA)s!

Orthodontia expenses that are paid up-front are now eligible for reimbursement through Health Care FSAs. Previously, orthodontia was only eligible for reimbursement as services were actually provided by your orthodontist. This change makes your FSA even more valuable because it allows you to take advantage of prepayment discounts offered by many orthodontists.

You Can Resubmit Previously-Denied Claims

If, during your company's current plan year, you previously submitted a claim for prepaid orthodontia work and your claim was denied, you may now resubmit the claim and it will be reprocessed. As long as it meets all guidelines, you will be reimbursed for the orthodontia prepayment.

You Can Submit New Claims

Prepaid orthodontia claims will be treated the same way as any other claim. As long as any required backup is provided with the claim, it will be submitted according to your plan's regular reimbursement schedule.

If You Have Questions

If you have questions about expenses that are eligible for reimbursement through your FSA, please visit TRI-AD's Web site for more information at www.tri-ad.com/fsa or contact our customer service center at 888-844-1372.
